TERRAIN SENSITIVITY, MACKENZIE VALLEY AND NORTHERN YUKON

CAIEP 11
-74 R44

The data for this report were obtained as a result of investigations carried out under the Environmental-Social Program, Northern Pipelines, of the Task Force on Northern Oil Development, Government of Canada. While the studies and investigations were initiated to provide information necessary for the assessment of pipeline proposals, the knowledge gained is equally useful in planning and assessing highways and other development projects.
